Al giorno d'oggi sempre più persone vivono il fenomeno del cosiddetto "nomadismo": lavoratori e studenti vivono parte della settimana in un posto, per poi rientrare a casa solo il venerdì. Ulteriori esigenze, poi, si fanno sempre più pressanti ai giorni nostri, quali la necessità di organizzare meglio i propri spazi sia in casa che in altri ambienti: palestra e auto, solo per fare alcuni esempi. Questo progetto denominato "STORE'N MOTION" ed elaborato con l'Università degli Studi di Torino, si prefigge di rispondere alle suddette esigenze, proponendo un'unica soluzione sia per la casa che per gli spostamenti frequenti, facendo risparmiare tempo e spazio, con un occhio ben rivolto all'estetica. "STORE'N MOTION": una delle idee più apprezzabili lanciate negli ultimi anni da Ordinett: vedere per credere!

Just like it has been going on in the United States for years, nowadays more and more people live a "nomadic" life: workers and students live part of their week in a location and then they return to their homes on Friday. Further needs arise when considering that we want to organize our space at home and in other places: gym or car, just to mention a few examples. This project, called "STORE'N MOTION" and made in cooperation with the University of Turin, proposes to solve the above mentioned issues by using a single solution both for home and frequent travel, allowing for time and space savings and, obviously, keeping an eye on looks. "STORE'N MOTION": one of the most intriguing and interesting ideas launched by ORDINETT in the last year. Seeing is believing!
